GREAT ZUCCHINI RACE

Anyone wishing to take the leap into competitive zucchini racing should possess the following: a zucchini, a sense of humor, creativity, and basic but sound engineering skills (because it's hard to win if your zucchini racer falls apart before the finish line).

Place of event to be announced.

NO ENTRY FEE

Zucchini Racer Specifications:

-Race car must be made of a real zucchini and must be the main part of the entry.

-Decorate and name your zucchini racer.

-Decorations adorning the zucchini may extend no more than 1 inch from the "front end" of the zucchini. The entire zucchini racer may be no wider than 8 inches, including wheels and decorations.

-Wheel axels must be incorporated into the zucchini itself. It's not acceptable to just attach a zucchini to an existing "vehicle" that rolls. This means no attaching a zucchini to a skateboard, roller skate, toy car, etc.

-Zucchini racer must have 3 or 4 wheels. Wheels can be any type – wooden, metal, vegetable, or plastic.

-Each racer must be self-propelled – no motors or auxiliary propulsion.

-The zucchini racer must be sturdy enough to compete in multiple races.

Prizes

Class 1 – Fastest zucchini

Class 2 – Best decorated (don't have to race)

Class 3 – Largest zucchini in the race
